

Plan for Ability to Benefit

Plan for Ability to Benefit is not pertinent to this Institution because all our associate programs at the present time require a HS Diploma or equivalent for Admissions. Our Diploma program is ESOL which does not require ATB

Admissions Procedures for Ability-to-Benefit Students

- Definition of an Ability-to-Benefit Student (ATB)- A student who is beyond the age of compulsory education, lacks a high school diploma or its equivalent, and has the ability to benefit from the education or training offered at an institution.
- Any applicant who is beyond the age of compulsory school attendance and has not been awarded a high school diploma or the recognized equivalent of a high school diploma must meet the following criteria to establish eligibility to benefit from instruction at SABER College.
- A student shall, prior to admission, complete:
 - a) a Wonderlic Test which measures the applicant's aptitude to complete successfully the program or course to which he or she has applied, and
 - b) an individual counseling session with the Dean/Student Advisor. In this session the Student Advisor will review, with the applicant, his/her short and long term career goals, acquired skills, and motivation. They will also explore together the various opportunities for employment in the community once he/she completes training. After the diverse areas mentioned above have been studied, the Counselor will then be ready to better evaluate the Ability to Benefit of the applicant for the specific Program for which he/she is applying.

SABER College will refer students to Independent Test Administrators (ITAs), in keeping with Wonderlic's regulations. The following administrators will be used for the Miami area:

Celeste del Valle Seldin

4021 SW 6th St.

Miami, FL 33127-2020

(786) 587-9057

Admissions Testing

The following constitutes the criteria used to measure an Ability-to-Benefit applicant's aptitude to complete successfully the program to which he/she has applied. The test which is used to determine a student's Ability-to-Benefit will be the **Wonderlic Basic Skills Test (WBST)** --Verbal Forms VS-1 & VS-2, Quantitative Forms QS-1 & QS-2.

The passing score for the test has been established as the following:

Verbal: 200 and Quantitative: 210.

The WBST is a short-form basic skills test used in educational testing. Designed for adults, the WBST is part of many career school admissions testing programs. Scores on the Math and English tests can be directly compared to the levels of basic skills required for success in entry-level jobs. The content of the WBST measures levels of General Educational Development (GED) as defined by the U.S. Department of Labor in the *Dictionary of Occupational Titles*.

Overview of the WBST:

1. The WBST Verbal and Quantitative tests quickly and accurately measure skills required to succeed in nearly every career training program. Each exam has a testing time limit of 20 minutes.
2. The WBST is approved by the U.S. Department of Education for use in qualifying non-high school graduates for Title IV Federal financial assistance under the Higher Education Act of 1965.
3. Wonderlic offers an ATB Program which is a service designed to fully support schools using the WBST to meet U.S. DOE requirements for ATB testing. The program institutes specialized procedures for WBST administration, scoring and reporting.
4. The test scores will be provided by the publisher as required by U.S. DOE.

Records

Our Institution shall retain the necessary record keeping documents, including records of tests administered, passing scores, student scores, counseling records, name of administrator, and records pertaining to each student's enrollment and progress in programs of remedial or developmental instruction while the students are attending school. Some of these documents such as grades and attendance hours shall be retained permanently by the school following the student's completion of the program.

Students who meet the minimum passing scores of the WBST and are positively evaluated by the Student Advisor, will be admitted to SABER School and will be permitted to enroll in their chosen program of study.

Methodology

1. Potential students may sign up to take the WBST with the school Student Advisor from 9:30-3:30 p.m.
2. Student Advisor will inform student of possible dates to take the exam after she confers with the administrator.
3. Student will then be given the information on the Administrator so he/she can make an appointment.
4. Test is administered and proctored by an approved Administrator
5. When Student Advisor receives the results of the test, the student will be contacted for a conference to discuss the results of his/her test scores.
6. If the student passed, Dean will then hold a session of individual counseling to further evaluate and determine the applicant's ability to benefit.
7. During the session Dean will inform the applicant that in order to complete the program of study, the student must pass the GED by the time that he/she has completed the course. Dean will tell potential student where they can find GED Preparation Classes.
8. Student Advisor will refer student to 3 schools in our area that offer GED Preparation classes at no cost to the student:
 - Miami Senior High School
 - Coral Gables High School
 - The English Center
9. After the applicant has satisfactorily completed all steps described above, the applicant will then be enrolled in SABER College.

10. Students will be clearly identified in the class roster so that the instructor is able to closely monitor their progress or lack thereof.
11. If a student is found not to be making progress towards the completion of the program, instructor will meet with student to discuss problem areas and will work with student to develop a remedial plan of action.
12. Students who do not show acceptable or satisfactory progress after meeting with instructor, will be referred to the Student Advisor. For example, if the problem is of a personal nature, student may be referred by Student Advisor to any of the support service agencies with which the school has worked in the past. If the problem is identified as one of an academic nature, the student will be given remediation or make-up work by the instructor. The instructor will suggest remediation activities and will set goals and timeframes. If student does not demonstrate progress during the probationary period, the student may be terminated from the program.
13. Dean will evaluate the effectiveness of the implemented procedures by reviewing 5% of the Ability to Benefit student's files, on a quarterly basis.
