

Plan for Instructional Equipment

Purpose

The purpose of this plan is to set forth the conditions under which the right to purchase and/or contract is structured and designate the positions to which such rights are granted for instructional equipment.

STATEMENT

No one is allowed to conduct any purchases without the permission of the Controller or CEO. All instructional equipment that is requested by an instructor must be requested to the Dean of Academic Affairs or Program Directors who will then submit the request to the Controller or CEO. If the request is granted, the equipment, when it arrives, is checked for meeting safety standards and is given to the instructor by the Dean or Program Directors.

Instructional equipment is stored on the 1st, 2nd, and 4th floors, including Lab equipment. College inspects and tracks equipment quarterly.

METHODOLOGY

1. Contact Program Directors or Dean of Academic Affairs and request instructional equipment
2. Contact CFO or CEO to request equipment
3. Administration to handle requisition
4. Conduct a bidding process which consists of obtaining 3 bids for items over \$7500.00
5. Place order (Purchasing Department) after receiving approval from CFO or CEO. In cases where the bidding process has taken place initially, PA need not conduct a bidding process every time same item is to be purchased. In this case, a new bidding process will be carried out every 5 years.
6. Arrangements are made for delivery of items purchased.
7. Proper documentation is submitted to the Finance Department once purchase is made
