

## **Operational/Purchasing and Maintenance Plan**

### **Purchasing**

#### **Purpose**

The purpose of this plan is to set forth the conditions under which the right to purchase and/or contract is delegated and to designate the positions to which such rights are granted.

The Operational/Purchasing and Maintenance Plan is handed to students during their orientation session. If any changes are done to plan, Program Director sends updated plan to students. Employees also receive the Operational/Purchasing and Maintenance Plan.

Regular purchasing is conducted every two weeks by submitting a request of items needed to the Fiscal Department. No one is allowed to conduct any purchases without the approval of SABER College's CFO. All instructional supplies that are requested by a teacher are given to the teacher to use if request is granted. Instructional supplies are stored in the 1<sup>st</sup>, 2<sup>nd</sup>, and 4<sup>th</sup> floor of the school in a supply closet. The dean of academic affairs is responsible for keeping track of supplies. If supplies were to run out, the institution also has a supply cabinet which is kept on the first floor where the dean can obtain needed supplies or make a purchase request to the CEO.

## **Methodology**

1. Contact purchasing office and request materials
2. Fiscal Department handles the requisition
3. Purchasing Department conducts process of obtaining 3 bids if items cost over \$7500.00
4. Purchasing Department places the order after approval from the CFO
5. Arrangements are made for the delivery of the goods requested
6. Proper documentation must be submitted to the Finance Department once purchase is made

## **Emergency Purchases**

In cases of emergency, oral approval must be obtained from the school's CFO. CFO will issue an Emergency Purchase Order when a bona fide emergency exists. A bona fide emergency exists when:

Definition of **EMERGENCY** Situations is one in which one or more of the following exists.

1. Classes or student services will be interrupted.
2. A promised service will fail or be delayed.
3. The health or safety of the community, employees or students of SABER will be endangered if the situation is not immediately remedied.
4. An immediate repair would reduce the risk of a more extensive repair later.

## **Methodology**

1. Contact the Purchasing Office located at Suite 103 and relay the information
2. CFO WILL DETERMINE IF A BONA FIDE EMERGENCY EXISTS.
3. If an emergency exists, the CFO grants purchase approval
4. The vendor is to be telephoned by the Bursar, and order equipment that has been requested. At that time, arrangements can be made for the emergency delivery of goods or services.
5. Proper documentation must be submitted to the Finance Department once purchase is made.

## **PURCHASING AND MAINTENANCE PLAN**

### **Maintenance**

#### **Purpose**

The purpose of this plan is to set forth the conditions under which regular maintenance and the right to contract maintenance services is delegated and to designate the positions to which such rights are granted.

All SABER College furnishings and equipment are treated with care by its employees.

We try to instill the same care in our students. For equipment that is used by students such as desks, computers, etc. we ask them to treat it with care.

#### **Methodology**

In the event of damage:

1. Students are to report the incident to their teacher.
2. Teacher is to immediately contact the director and let her/him know of the damage. If a teacher is not present then the student must notify the director.
3. The director will then contact the administrative offices so they can conduct the procurement procedure.
4. SABER Staff inspects periodically all our furnishings and equipment. We specifically inspect the areas that students use, to see if anything is damaged or needs to be replaced. If it does it is immediately reported.
5. Any equipment that needs to be fixed or replaced will be taken care of, in an appropriate time frame.
