

Operations & Maintenance Plan

Purpose

The purpose of this plan is to set forth the conditions under which regular maintenance and the right to contract maintenance services is delegated and to designate the positions to which such rights are granted. All SABER College furnishings and equipment are treated with care by its employees. We try to instill the same care in our students. For equipment that is used by students such as desks, computers, etc. we ask them to treat it with care.

Methodology

In the event of damage:

1. Students are to report the incident to their teacher.
2. Teacher is to immediately contact the directors and let them know of the damage.

If a teacher is not present then the student must notify the directors.

3. The directors will then contact the administrative offices so they can conduct the procurement procedure.
4. SABER Staff inspects periodically all our furnishings and equipment. We specifically inspect the areas that students use, to see if anything is damaged or needs to be replaced. If it does it is immediately reported.
5. Any equipment that needs to be fixed or replaced will be taken care of, in an appropriate time frame.

Evaluation

The maintenance plan is evaluated in July, October, January and April, by checking the following:

A/C Filters, A/C Units, Bathrooms, Ceiling Lights, Chairs, Desks, Doors, Exit Signs, Floors, Walls and Fire Exits.

The checklist is kept on file at the institution. The Plan is available to employees and students and may be copied by asking the Personnel office

Maintenance Plan follows relevant state law and applicable federal codes and procedures.
