

Plan for Public Information and Community Relations and Documentation

Purpose:

To provide guidelines regarding the release of information concerning SABER to the media and general public

The CEO, is the official spokesperson for the school on matters of policy and official action. In most cases, this authority is delegated to someone in the administration, whom the CEO deems qualified to dispense information. The designated person releases all information, including situations pertaining to controversies and emergencies, as well as routine events to which the media has a reasonable claim. The administrative office compiles, coordinates and disseminates information to the media and/or public. The release of all information must be through the administrative offices.

Employees should keep the administrative offices informed about matters in their areas of responsibility. The CEO or designated employee decides, in consultation with the persons involved and supervisors if appropriate, what information is to be released to the general public as well as the time and manner.

Unless given authority to do so, employees are advised not to speak to the news media or general public concerning school affairs. Employees should be careful to clarify to the media and general public when remarks are made as an individual and not as an official spokesperson of the school.

Employees who are authorized to release information to the news media should follow the guidelines outlined below:

1. Ask the reporter's name and the identity of the news media. If the request for information is reasonable, give the reporter full cooperation, making every effort to be accurate. If unsure that the information sought should be released, refer the reporter to the CEO.
2. When comments are personal opinions, make it clear to the reporter that such comments are personal and do not represent the school's position.
3. Inform the administrative offices of any releases of information to the news media or to the general public.
4. This then must be documented so that the school has record of said release.

METHODOLOGY

1. Advisory Committees meet and identify news regarding school that should be disseminated to the public or
2. Administrators meet and identify news regarding school that should be disseminated to the public.
3. Best way of disseminating information is discussed by the administrators.
4. Choice is made whether news is to be disseminated using TV, Community Meetings, Visits to Community Agencies, Internet, Flyers, Social Media, etc.
5. After the approval of a new program, news is disseminated as instituted by the Committees using Social Media, and the School Catalog
6. Recruitment for programs is conducted periodically using marketing groups, and e-marketing.
7. DOEA conducts research as to the cost of advertising
8. DOEA disseminates news throughout the community
9. DOEA and CEO meet to discuss cost of advertising.
10. DOEA together with the chosen marketing group decide which media to use at each particular time for advertising and recruiting.
11. Finance Office together with CEO approve media being used and DOEA contracts services

Saber's public information and community relations plan has been developed through all the years that the institution has been serving this community. It has been revised and modified based on current trends and needs, and continues to be adapted, as needed, to assure that the school reaches out to the community and keeps it informed of the services / programs being offered.
